2015-2018 Transportation Improvement Program (TIP) & 2013-2038 Regional Transportation Plan Amendments

Ryan MacLaren presented the August 16, 2016 memo, explaining that the Policy Committee is being asked to consider approval of the following amendments to the 2013-2038 Regional Transportation Plan and 2015-2018 Transportation Improvement Program. The 21-day public comment period and public hearing were advertised on June 2nd in the Medford Tribune, and information has been available on the RVMPO website since that date. The RVMPO TAC has recommended approval of the amendments.

The amendments include:

- **RVTD Mass Transit Program**

- A. Amendment to RTP & TIP: RVTD Mass Transit Program 15-17 (KN19915)**

- Description: Category A Vehicle Replacement. (CNG fuel)**

- Federal Funds: \$ 426,218 Match: \$ 48,783 (RVTD) Total: \$ 475,001

- Total All Sources: \$ 475,001**

Paige Townsend answered questions from the Committee members, offering specifics on the funding sources.

The Chair closed the public testimony.

On a motion by Jim Lewis, seconded by Tonia Moro, the Region-wide Rumble Strips (KN 18880) were unanimously approved by voice vote. The Committee recognized that actual CMAQ funding is unclear at this point, due to inclusion of Eugene and Salem in the process.

Action Items:

5. Regional Transportation Plan (RTP) 2017-2042 Financial Forecasts

The TAC reviewed the draft financial forecasts for the 2017–2042 RTP included in the memo and recommend Policy Committee approval. The PAC also recommended approval. The Table below outlines the different sources of funding that make up the RVMPO financial forecast.

Federal (STBG & CMAQ), State (ODOT) (Highway Enhance/Fix It and Maintenance) and Local Jurisdictions (SUFs, SDCs and other urban fees) are the revenue sources,

The forecasts are divided into short, medium and long range timeframes of the 2017-2042 RTP. Short Range forecasts include all committed (in the 2015-18 TIP) federal funds for 2015 to 2018 (see Table 3 – RVMPO Revenue Summary 2017-42). Proposed RVMPO Discretionary Funds which include; Enhance & Fix-It, STBG and CMAQ are depicted in Table 4. Discretionary funds can be used for medium and long range projects that are in need of funding. RVTD's financial forecasts are depicted in Tables 6 – 9.

The Tables include:

- #1 Highway Funds
- #2 Highway Fund Distribution
- #3 RVMPO Revenue Summary 2017-42
- #4 Discretionary Funds (with the inclusion of Salem/ Eugene)
Notes: 1.8% annual increase used. No calculations were done for potential “payback” of shortfall)
 Due to CMAQ cutbacks, TAC is recommending anticipated funding calculation at 50%.
- #5 Revenue & Expenditure Assumptions
- #6 RTVD Revenue Assumptions (Tables #6-9 coordinated with RVTD).
Notes: Medium & long range needs show anticipated shortfalls.
- #7 RVTD Expenditure Assumptions
- #8 RVTD Revenue & Expenditure Summaries
- #9 RVTD Revenue & Expenditure Assumptions

The Policy Committee was asked to review and consider approval of Tables 1 through 9. These tables will be included in the appropriate chapters of the draft 2017-42 RTP in order to show financial constraints.

On a motion by Jim Lewis, seconded by Michael Zarosinski , the Regional Transportation Plan (RTP) 2017-2042 Financial Forecasts were approved by the Policy Committee on a unanimous vote.

6. Regional Transportation Plan (RTP) 2017-2042 Project Lists .

Dan Moore shared that the TAC reviewed the draft short, medium and long range projects to be included in the 2017–2042 Regional Transportation Plan (RTP) and recommend approval. The draft project lists were attached to the explanatory memo on this matter. Also attached was a draft Tier 2 project list.

The RTP, like the Transportation Improvement Program (TIP), includes projects that meet federal guidelines, specifically: regionally significant (generally adding travel lanes) and federally funded. Any project that adds system capacity (other than local street expansion) must be included for air quality conformity. The project list in the RTP must also be financially-constrained; meaning that funding to build the projects is reasonably expected to be available at the time of construction. The RVMPO typically uses discretionary Surface Transportation Block

Grant (STBG) and Congestion Mitigation and Air Quality (CMAQ) funds, in addition to local funds, to supplement short, medium and long range RTP projects in order to demonstrate financial constraint. Estimated ODOT Enhance funds for the RVMPO area are also used in the discretionary funding formula. The TAC recommended that the MPO only plan on receiving one half of the Enhance funds for future MPO projects. This seems realistic in that not all of the Enhance funds for Region 3 will go to MPO projects.

Federal planning requirements limit RTP projects to those which full funding has been identified. The anticipated funding must be reasonable and based on the RTP's approved financial forecast. There is adequate MPO discretionary funding (STBG, CMAQ & Enhance) to supplement the funds needed for the short, medium and long range projects (through 2042). Table 1 depicts the breakdown of discretionary funding needs:

Discretionary Needs (\$ X \$1,000) -

Need Totals = \$63,045

Discretionary Funding Totals = CMAQ \$38,830 STBG \$45,942 Enhance \$19,440

Grand Total = \$104,212

Balance = \$41,168

The anticipated amounts of CMAQ, STBG and Enhance funding for the short, medium and long range RTP timeframes are shown were shown in Table 1. under the "Potential Funding" column. The second column under "Discretionary Funding Needs," shows the amount of funding needed to fully-fund proposed RTP projects for the short, medium and long range timeframes. The last column shows the balances for each timeframe after applying the potential funding for each timeframe. There are balances of \$7 million in the short range, \$3.8 million in the medium and \$30 million in the long range timeframes.

The draft project lists are financially-constrained. In other words, the MPO can reasonably expect to receive the funding needed to construct the projects in the 2017-42 RTP. There is one project on the Tier 2 list (Jacksonville's Hey. 238 bypass). The Tier 2 lists projects that are needed, but not funded (or need some legislative action such as a comprehensive plan amendment). Once funding is identified, the RVMPO may list them in the RTP projects list. Tier 2 projects cannot be relied upon for metropolitan planning purposes. They are not considered to be planned projects in the RTP. However, they can be analyzed and listing these projects in Tier 2 serves to identify unmet needs.

The single, **Tier 2 Project** is Jacksonville's Project #401, Pair-a-Dice Ranch Rd., OR 238 to city limits to construct a two lane truck route connection with the city's share within the UGB). The project cost is set at \$7,032,000. A Comprehensive Plan amendment will be required for the City to move ahead with construction.

Dan Moore explained the differences in maintenance plans for PM10 and PM 2.5. (The PM2.5 issue is more related to wood stoves than transportation.) He also explained jurisdictions could apply for MPO discretionary funds to help complete their project.

When approved, the Project Lists will be given to ODOT. Staff is waiting for some updated figures from RVTD's Finance Manager. This does not affect the RTP Project List or constraints.

On a motion by Tonia Moro, seconded by Jim Lewis, the Committee unanimously

approved the Regional Transportation Plan (RTP) 2017-2042 Project Lists, with anticipated updates to the RVTD figures.

Dear Mike,

RVMPO staff briefed the Public Advisory Committee (PAC) at our July 19, 2016 meeting about potential reductions in RVMPO Congestion Mitigation and Air Quality (CMAQ) funding due to the addition of the Salem and Eugene Air Quality Maintenance Areas to the statewide CMAQ funding formula. The PAC reviewed the Policy Committee's letter to the Oregon Transportation Commission (OTC) and shares the same concern that no harm should befall our region's air quality as a result of a reduction in CMAQ funding.

In addition to the Policy Committee's concerns and recommendations, the PAC believes that specific regional factors need to be brought to the OTC's attention concerning the region's air quality situation. Below is a list of a few expressed concerns.

- a. The Rogue Valley has unique topographic problems, such as lower wind speeds and location between high mountain ranges. As a result, the Rogue Valley is perilously closer to violating EPA limits for ozone and very small particles - posing significant health risks for the local population.
- b. Voluntary efforts are being made to mitigate air quality problems such as Oregon DEQ's Inspection and Maintenance (I&M) Testing Program here in the Rogue Valley.
- c. The Rogue Valley area is the only Maintenance Area in the State mandated to do dispersion modeling.
- d. The region is economically hamstrung for putting stringent emissions reduction requirements on certain industrial users in the region as opposed to other areas in the state where this is not a problem.

Thank you for the opportunity to comment.

Sincerely.

Justin Hurley

SUBJECT: Agenda I – CMAQ Funding Program

Requested Action:

Provide input related to the process for making changes to the allocation and use of the federal Congestion Mitigation and Air Quality (CMAQ) funding in Oregon. The discussion will include how to engage appropriate stakeholders and expected timelines.

Background:

The CMAQ program is a federal-aid funding source for transportation projects that reduce traffic congestion and improve air quality, specifically for the pollutants of ozone, carbon monoxide and particulate matter. Within this general purpose, the program can fund a wide variety of projects, with each project meeting three basic criteria: *it should be a transportation project, it should generate an emissions reduction, and it should be located in or benefit a nonattainment or maintenance area.* Some general project categories include: dust reduction, traffic flow improvements, transit vehicles, initial operations assistance for new transit service, transit infrastructure, bicycle and pedestrian facilities and programs, Transportation Options, alternative fuels and vehicles, data systems and planning, and education/outreach.

The Federal Highway Administration (FHWA) determines which nonattainment and maintenance areas CMAQ funds are eligible to be used within. The Oregon Department of Transportation (ODOT), as the state department of transportation, has the discretion on how to allocate the funds for projects within these eligible areas. Historically, almost all of the CMAQ funds have been allocated to the individual eligible areas that control project selection and investment decisions at their local level. The allocation formula was last modified in 2006 and agreed to by representatives from the specific Oregon eligible nonattainment and maintenance areas and ODOT staff. That formula remains in effect currently and sets the percentage of

available annual funding that each eligible area has control of. Until recently the qualifying areas were: the Portland metro area, Medford-Ashland, Grants Pass, Klamath Falls, Lakeview, Oakridge, and La Grande.

New Considerations:

In March 2016, at the urging of the Salem-Keizer and Central Lane Metropolitan Planning Organizations and with ODOT staff support, the FHWA Oregon Division Office in coordination with their Washington, D.C. program office, confirmed that both the Salem and Eugene areas are now eligible CMAQ areas. Upon this determination, all eligible CMAQ areas in Oregon were notified of the two additional eligible areas and the need to reevaluate future distributions of CMAQ funds.

In April 2016, the proposed National Performance Management Measures for Assessing the CMAQ Improvement Program were released as part of the MAP-21 required performance measures. While not approved yet, the proposed rules would require states to estimate statewide emission reductions and set 2 and 4-year total emission reduction targets, based on the reductions for each CMAQ funded project.

Next Steps:

Originally, ODOT staff planned to convene stakeholders in summer 2016 to form a recommendation to the Oregon Transportation Commission by fall 2016 on how to allocate CMAQ funding and how to include all nine eligible areas. After further consideration, taking into account the feedback heard from various stakeholders, ODOT staff now recommends taking the necessary time to work the issues with stakeholders and ensure the CMAQ funds are used in a strategic and effective manner. Because CMAQ funds were identified in the current 2015-2018 STIP for the previous eligible areas, the focus will be on funding decisions for 2019 and beyond. To thoroughly engage the eligible CMAQ areas, the potential recipients of these funds, and other interested stakeholders, this process is anticipated to take 9-12 months. This is in alignment with stakeholder engagement and program development for other large funding programs. The goals of this effort will be to set clear objectives for this funding source in Oregon, ensure the strategic use of these funds, and consider on-going stakeholder engagement for this funding source, possibly through an advisory committee.

- Mike Quilty spoke to the OTC. Representatives from Eugene and Springfield, and Lane County MPO spoke at the meeting about their anticipated funding eligibility. Chairman Quilty shared RVMPO's concerns about the effect that funding cuts will have on the region. Mr. Quilty spoke privately to three (3) OTC Commissioners about losing ability to expend federal funds. A stakeholder group has not been established, but he also stressed that our region absolutely needs to be considered for representation.
- The regional travel demand model is almost completed.

- The RTP is on schedule.
- The GHG Target Rule Advisory Committee did not make any decisions at their 8/23/16 meeting. The question was whether targets should be mandatory, and different for different MPOs, or identical across the State. There was even discussion about some MPOs not having targets at all. Implementation funding is a concern for many.

September 20, 2016

To: RVMPO Policy Committee
From: Dan Moore, Planning Program Manager
Subject: FY 2016 – 2017 UPWP Amendments

The purpose of this memo is to provide the Policy Committee with information on proposed budget amendments to the 2016-2017 Rogue Valley Metropolitan Planning Organization (RVMPO), Unified Planning Work Program (UPWP) budget. The UPWP budget needs to be amended to reflect changes in the amounts of FHWA and FTA 5303 planning funds allocated to the MPO. The TAC reviewed the proposed amendments at their September 14, 2016 meeting and recommend approval.

FHWA planning funds for the RVMPO need to be reduced \$43,537 from \$465,431 to \$421,894. FTA 5303 planning funds need to be reduced \$850 from \$84,588 to \$83,738. Combined, FTA 5303 and FHWA fund reductions for the RVMPO total \$44,387. The reason for the reductions in funding is that ODOT revised the funding estimates without notifying the RVMPO until after the UPWP was adopted and the IGA sent for signature. The RVMPO was inadvertently left off of a February 2016 email notification from ODOT that went out to the Oregon MPOs with the changes to MPO funding allocations.

A total of \$44,387 needs to be deducted from some of the current UPWP work tasks to balance the budget. Below is a list of proposed deductions. In order to accommodate the reductions, some staff hours were reallocated to other projects (i.e., RVTD Transit Plan, Rogue River TSP and Gold Hill LSNP). Most UPWP tasks have contingency funds built into the budget that can be used, if necessary, on the task budgets below that are being reduced. There is approximately \$27,000 in contingency funds available. The original and revised budget sheets are attached to this memo. The proposed deductions will not affect the MPO's ability to complete the work tasks identified for reductions. If the MPO had the correct funding amounts to begin with, the work task budgets below would have been proposed for the FY2017 UPWP.

Proposed UPWP Amendments

1. Under Task 2.0 Short Range Planning, Subtask 2.1 TIP Activities; deduct \$8,537 in FHWA planning funds.
