

Why Should I Get Involved?

If you use transportation, you are involved!

You probably used some form of transportation today. Whether it's a car, bike, bus, wheelchair or walking – you are involved.

Transportation allows us to get to and from work, school, shopping, meetings, events, medical services, etc.

Transportation affects our quality of life, from the air we breathe, safety of our families, and to our own personal budgets.

The transportation system is designed to serve you. The funding to develop and maintain our transportation system comes from several sources – including your tax dollars!

Your input is critical to the overall quality of our region's transportation system, and to ensure your transportation needs are being met.

- What type of transportation do you use?
- Are you satisfied with your choices?
- Do you have any problems with this method?
- Would you like more options?

Metropolitan
Planning Organization**

Transportation Planning Principles

The planning process is more than just a listing of future highways and planned transit upgrades. It requires developing strategies for operating, managing, maintaining, and financing the area's transportation system in order to advance the region's long-term goals.

RVMPO Partners:

- Federal Highway Administration (FHWA)
- Federal Transit Administration (FTA)
- Oregon Department of Transportation (ODOT)
- Rogue Valley Transportation District (RVTD)
- Jackson County and the Cities of Ashland, Talent, Phoenix, Jacksonville, Medford, Central Point, Eagle Point and White City

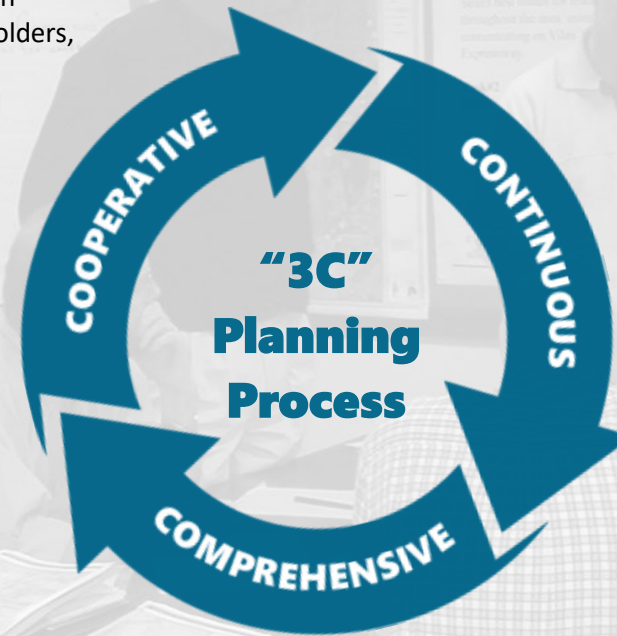

3C Process: MPOs were created in order to ensure that existing and future expenditures for transportation projects and programs are guided by the 3C process, which means the transportation planning process is cooperative, continuous, and comprehensive.

Cooperative

The RVMPO works with state and local stakeholders, including interested individuals and special interest groups

Continuous

Key documents are continuously reviewed and updated as needed

Comprehensive

Multiple transportation modes are considered, such as: *transit, personal vehicle, biking, walking, freight, air*

As well as multiple factors, including: *air quality, social justice and employment*

This guide is to help keep you informed and encourage your participation in the transportation planning activities of the Rogue Valley Metropolitan Planning Organization (RVMPO)
